The common denominator in sports is that to win, you have to defeat the opposing

Team

GOAL

Successful remediation and treatment, the first time. Because teaming is for the **PATIENT**.

The health and well-being of the patient.

UNNATURAL NATURALNESS?

S.P.A.T.

“The ideal is unnatural naturalness. It is a combination. There is natural instinct and there is control. You are to combine the two in harmony. Not if you have one to the extreme, you'll be **very unscientific**. If you have another to the extreme, you become, a **mechanical man** No longer a human being. It is a successful combination of both. That way it is a process of continuing growth.”

Bruce Lee

HARMONIZING OUR MINDS TO EFFECTIVELY WIN THE FIGHT!

Incorporating the Chinese philosophical concept that describes how obviously or contrary forces may actually be complementary, interconnected, and independent in the natural world, and now they may give rise to each other as they interrelate to one another.

IEP's have the science, experience, and possibly the clinical eye, but they may not have the time.

You need time to allow control and instinct to be unified, in order to establish a state of calmness. This is how you develop the "eye of the tiger".

FACT: The remediation company spends the most amount of time in the place that got the patient sick to begin with. The IEP spends a fraction of that time.

So how is the accomplished?

BY...

Becoming water!

Empty your mind, be formless, shapeless, like water. If you put water into a cup, it becomes the cup. You put water into a bottle and it becomes the bottle. You put it in a teapot it becomes the teapot. Now, water can flow or it can crash. Be water my friend.
